SUMMARY

Third-Year Computer Science student combining practical experience in analyzing real-world market datasets and building interactive dashboards. Proven ability to bridge the gap between complex datasets and core business decision-making by transforming raw data into clear, actionable insights. Seeking to leverage technical expertise and a problem-solving mindset to deliver measurable value and drive impactful data-driven solutions in a dynamic organization.

EDUCATION

Bachelor of Computer Science *09/2024 – Present*

Faculty of Computers and Information, Menoufia University

PROFESSIONAL EXPERIENCE

Professional Data Analyst Trainee | Digital Egypt Pioneers Initiative (DEPI) *07/2026 – Present*

Ministry of Communications and Information Technology (MCIT)

- Selected for the 6-month professional data analyst track, focused on end-to-end data analysis, SQL, Python, and data visualization.
- Performed EDA and data cleaning on 5+ complex datasets to extract actionable business insights.
- Designed 3+ dynamic dashboards and interactive reports to effectively communicate findings to stakeholders.

CIB Summer Intern *07/2026 – 08/2026*

CIB Egypt

- Completed 13+ modules in a 1-month intensive summer program focused on Generative AI applications in the banking sector.
- Engaging in a specialized learning journey covering digital transformation, banking operations, and future-focused tech skills.

PROJECTS

Egyptian Used Car Market Analysis 2025 | INCO Academy

- Cleaned and analyzed 24,000+ real records across 10+ variables from hatla2ee.com to identify the key drivers of used car prices in Egypt.
- Applied data cleaning, exploratory data analysis (EDA), and built an interactive Power BI dashboard to uncover insights on brand, mileage, and model year impact, revealing a 7x price gap between luxury and economy brands.
- Recognized among top project submissions in the cohort, awarded LinkedIn Premium (1 year) by INCO Academy.

Tools: Python · Power BI · Excel (Power Query)

COURSES & CERTIFICATIONS

GCI World 2026 — Data Science & AI Program *04/2026 – 07/2026*

The University of Tokyo, Matsuo-Iwasawa Lab. — Remote/Tokyo

- Selected from 7,700+ global applicants to join this intensive, research-driven program in Python and machine learning.
- Pursued the program to deepen technical foundations in Python and machine learning, further supporting a stronger, more data-driven approach to analysis.

Google Data Analytics Professional Certificate *03/2026 – 05/2026*

INCO Academy / Coursera

AI & ProSkills Training

MetLife × INCO Academy

SKILLS

Technical: Microsoft Excel, Python, SQL, Power BI, Tableau, Data Visualization, Data Cleaning, Exploratory Data Analysis (EDA), Google Sheets.

Analytical: Data Preparation, Data Transformation, Data Mining, Statistical Analysis, Data-driven Decision-Making.

Soft Skills: Attention to detail, Communication, Adaptability, Time Management, Teamwork, Analytical thinking.

LANGUAGES

Arabic (Native) English (Intermediate)
